INTRODUCTION

The Rashemi are a fierce and proud people. Show them we are the same—and more.

—High Thane Urrim Stonepick

Journey to the High Country is a supplement for the DMs Guild™ adventure, *Hand of the Wychlaran*. This supplement ties the adventure presented in *Hand of the Wychlaran* to the DMs Guild adventures, *Journey to the Buried Vale*, *Journey to the Summer City*, and *Journey on the Long Road*.

The previously mentioned adventures revolve around a party of dwarves from Citadel Hoarfrost, a small dwarven stronghold tucked deep within the Icerim Mountains of northeastern Faerûn. The exploits covered in the previous adventures take place in and around the lands of Narfell. The events detailed in *Hand of the Wychlaran* take place in the nation of Rashemen, which lies to the southeast of Narfell.

This supplement contains information on Narfell and Rashemen, pregenerated characters, and boxed text to augment the opening and closing encounters in *Hand of the Wychlaran*, which is required to play. You can download a copy of *Hand of the Wychlaran* from the DMs Guild website.

NARFELL

Narfell is a wintry country covered in infertile soil and scraggly grass. Glaciers on Mount Nar reach down from the peak and into the plains. Icelace Lake is frozen nearly year-round. Bitter, killing winds blow unceasingly.

From the backs of tall, shaggy horses, nomadic folk hunt reindeer and wild oxen. Calling themselves Nars, these fierce riders and archers supplement their resources by raiding west into Damara, south into the Great Dale, and even into northeastern Thesk. More often, though, the tribes fight among themselves.

ADVENTURE HOOK

High Thane Urrim Stonepick of Citadel Hoarfrost seeks to strengthen relations and open trade between his stronghold and the nation of Rashemen. Although Iron Lord Mangan Uruk seemingly rules Rashemen, its true power lies with the Wychlaran. The Wychlaran wield magic tied to the land, and they train those with power to serve Rashemen. Female Wychlaran, called hathrans or learned sisters, cast spells of wild power. Male spellcasters, called Old Ones since many live to a staggering age, are few. They excel in itemcraft and rituals. Collectively, they choose the Iron Lord. They protect and teach this potent commander, and they can remove him from the throne at will.

In an effort to gain favor with the Wychlaran, the High Thane selected several groups of young dwarves and sent them to Rashemen in early summer with two objectives. First, let the people of Rashemen see the clansmen of Citadel Hoarfrost as individuals who exhibit respect, honor, and decency. Second, find a way to impress the Wychlaran and earn their goodwill.

STARTING THE ADVENTURE

Before departing for Rashemen, the PCs learned the basics of its history and culture. Each PC knows the information below.

- Rashemen is a rugged land of hardy and fiercely independent people tied to ancient ways practiced for over a thousand years.
- Rashemen has prevailed in the face of invaders. Old enemies include ancient Narfell and Raumathar, lost Mulhorand, the Tuigan of the Hordelands, and Thay.
- The Wychlaran wield magic tied to the land, and they train those with power to serve Rashemen. Female Wychlaran, called hathrans or learned sisters, cast spells of wild power. Male spellcasters, called Old Ones since many live to a staggering age, are few. They excel in itemcraft and rituals.
- Although Iron Lord Mangan Uruk seemingly rules Rashemen, its true power lies with the Wychlaran. Collectively, they choose the Iron Lord. They protect and teach him and can remove him from the throne at will.

Read the following to start the adventure.

The words of your thane echo in your thoughts: *The Rashemi are a fierce and proud people. Show them we are the same—and more.* You have spent the last several months traveling throughout Rashemen at the behest of High Thane Urrim Stonepick. In an effort to improve trade and relations between Citadel Hoarfrost and Rashemen, your thane sent you to the strange land with a twofold mission. First, let the people of Rashemen see the clansmen of Citadel Hoarfrost as individuals who exhibit respect, honor, and decency. Second, find a way to earn the goodwill of the Wychlaran.

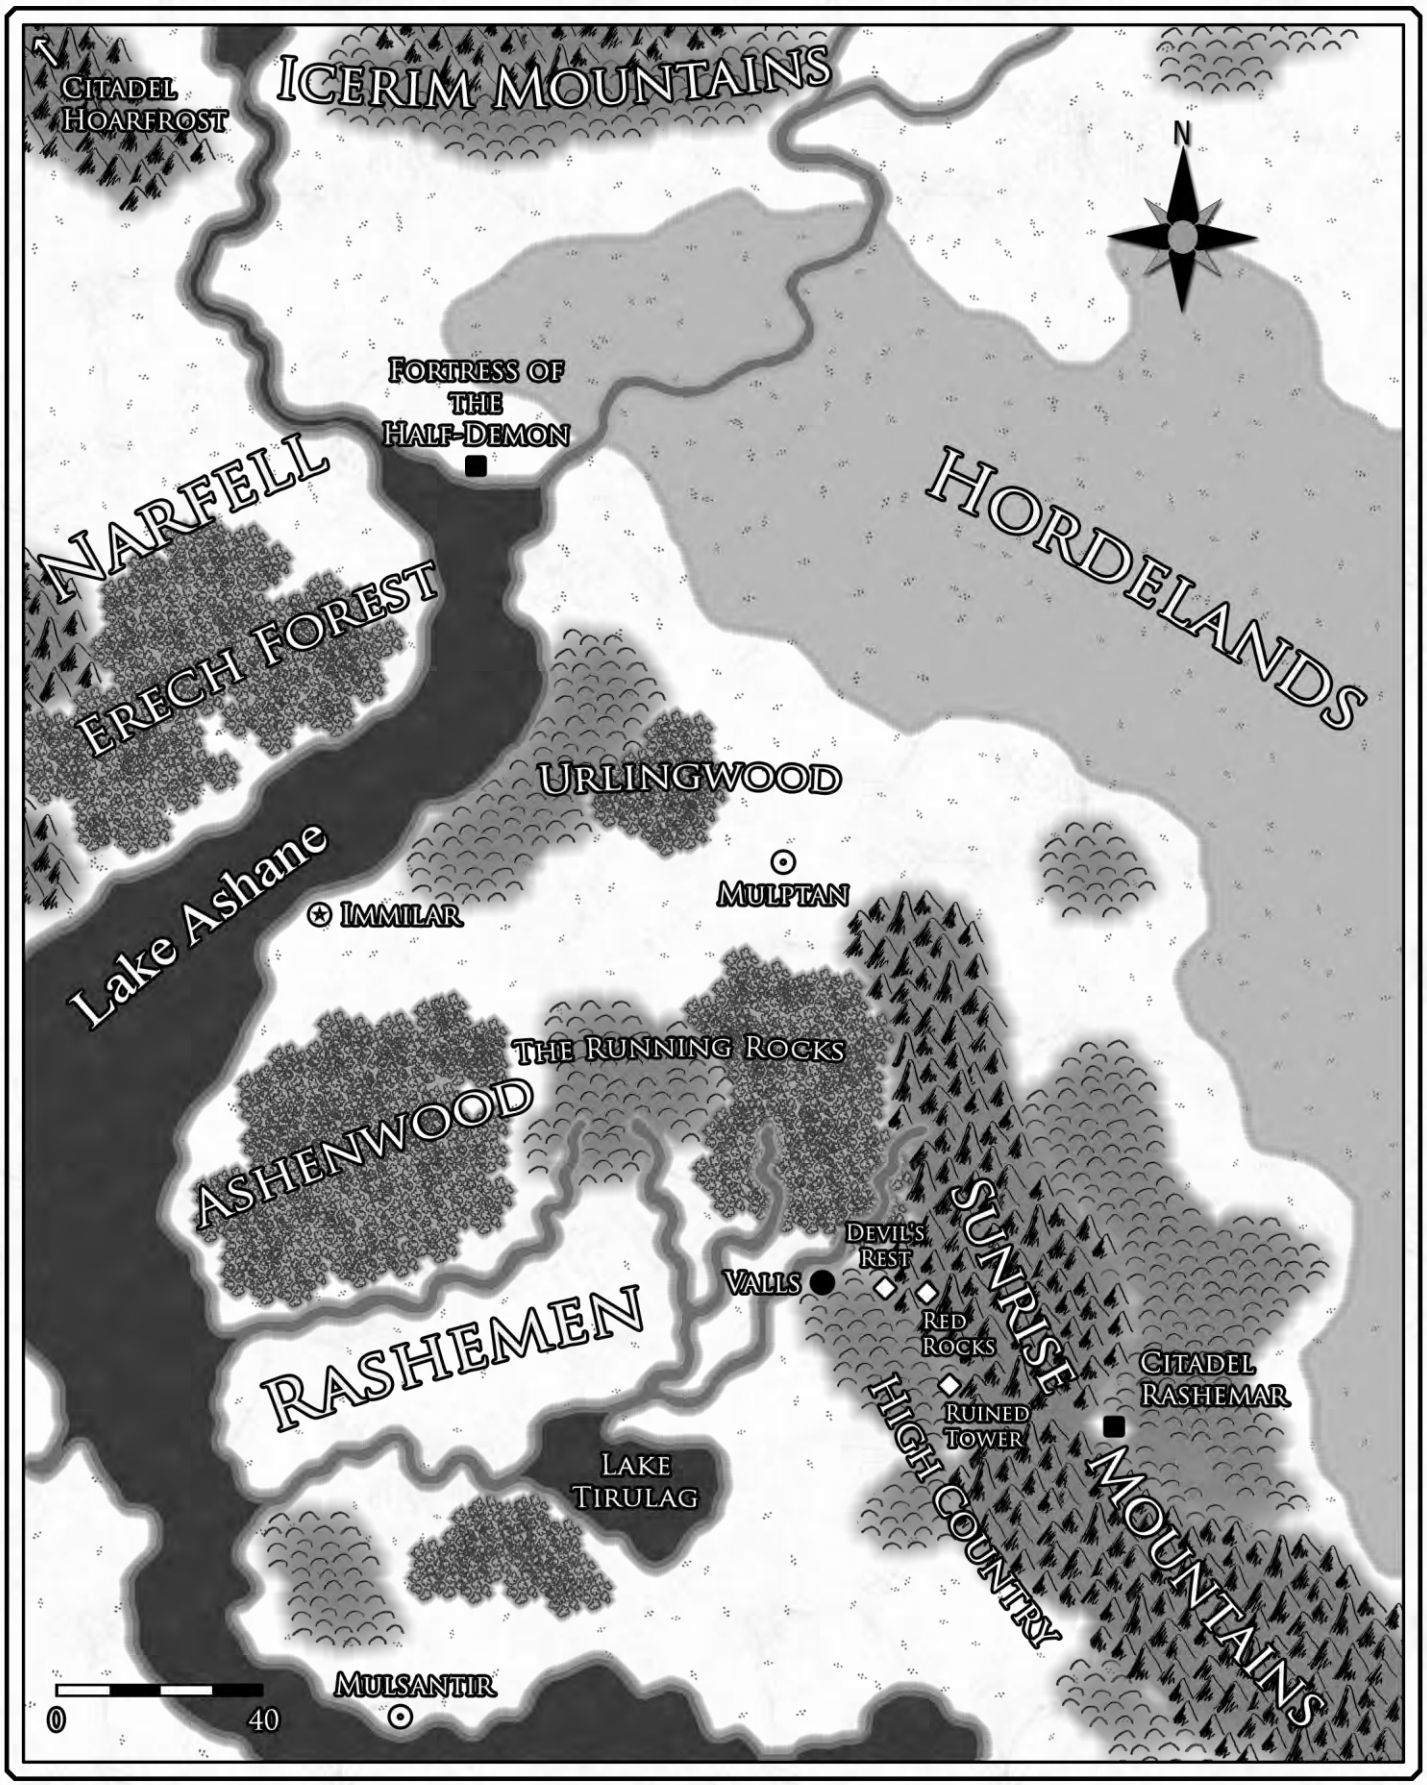

As a pragmatic dwarf raised within the halls of Citadel Hoarfrost, the first part of your mission has been easy. In spite of their strange customs (like short, trimmed beards), the Rashemi are sturdy, hardworking, and deeply respectful of the land, and your shared qualities have allowed you to move throughout their culture with relative ease.

You second objective has been problematic. The Wychlaran's masked witches are not given to socialization amongst the general populace. Even in the larger cities of Immilmar and Mulptan, they are rarely seen.

During your travels, you have broken up several bar fights, rescued a wagon of merchants from a bandit attack, and even tracked and eliminated an ogre that had been stealing pigs from an outlying farm. While none of these deeds has drawn the attention of the Wychlaran, the Rashemi have been grateful for your help, and several days ago a tavern owner outside of Mulsantir suggested you travel to the small mining village of Valls on the outskirts of Rashemen's High Country to investigate a call for adventurers by a hathran named Rendora.

ENDING THE ADVENTURE

To end *Hand of the Wychlaran*, replace the boxed text in the *Ending the Adventure* section of the adventure with the text below.

Read the following to end the adventure.

Rendora's mouth forms a frown as she reads the letter you retrieved from the hag's belongings. In spite of her mask, it is easy to see her concern. Upon finishing, her features return to their normal calm state.

"You have completed your task better than I could have expected, and you have more than earned your reward. In addition, you have shown Citadel Hoarfrost to be loyal and trustworthy neighbors to Rashemen. The information you brought to me is invaluable, and my fellow sisters will be impressed when they learn of your deeds." Smiling, she adds, "High Thane Urrim Stonepick will no doubt be pleased by your actions. While I suspect you and your companions are destined for greater things, know that you are always welcome in Rashemen and that the Wychlaran consider you a friend."

So ends your Journey to the High Country.

PERSONALITY

Vondal and his brother, Berend, belong to the Stonemantle clan, a group of dwarves in Citadel Hoarfrost with a long and proud warrior history. The two brothers have always been competitive, and this outing will prove no different, as they have wagered a bottle of dwarven summer ale to whoever claims the most foes.

MANNERISMS & APPEARANCE

Unlike his surly and gruff brother, Vondal is much more congenial. While his faith is strong, he has managed to shy away from the often unbearable piousness of other holy warriors, even going so far as to be a bit of a prankster. His favorite activity, however, is politely teasing his brother, Berend. Like his brother, he isn't shy about using his clan's battle cry of, "for Stonemantel!" during fights.

RACE & BACKGROUND INFORMATION

MOUNTAIN DWARF TRAITS

As a mountain dwarf, you're strong and hardy, accustomed to a difficult life in rugged terrain. You're probably on the tall side (for a dwarf), and tend toward lighter coloration. Your dwarf character has an assortment of inborn abilities, part and parcel of dwarven nature.

Ability Score Increase. Your Strength and Constitution scores both increase by 2.

Age. Dwarves mature at the same rate as humans, but they're considered young until they reach the age of 50. On average, they live about 350 years.

Alignment. Most dwarves are lawful, believing firmly in the benefits of a well-ordered society. They tend toward good as well, with a strong sense of fair play and a belief that everyone deserves to share in the benefits of a just order.

Size. Dwarves stand between 4 and 5 feet tall and average about 150 pounds. Your size is Medium.

Speed. Your base walking speed is 25 feet. Your speed is not reduced by wearing heavy armor.

Darkvision. Accustomed to life underground, you have superior vision in dark and dim conditions. You can see in dim light within 60 feet of you as if it were bright light, and in darkness as if it were dim light. You can't discern color in darkness, only shades of gray.

Dwarven Resilience. You have advantage on saving throws against poison, and you have resistance against poison damage (explained in chapter 9).

Dwarven Armor Training. You have proficiency with light and medium armor.

Dwarven Combat Training. You have proficiency with the battleaxe, handaxe, throwing hammer, and warhammer.

Tool Proficiency. You gain proficiency with the artisan's tools of your choice: smith's tools, brewer's supplies, or mason's tools.

Stonecunning. Whenever you make an Intelligence (History) check related to the origin of stonework, you are considered proficient in the History skill and add double your proficiency bonus to the check, instead of your normal proficiency bonus.

Languages. You can speak, read, and write Common and Dwarvish. Dwarvish is full of hard consonants and guttural sounds, and those characteristics spill over into whatever other language a dwarf might speak.

BACKGROUND: HOARFROST EXPLORER

You have been raised and trained within the halls of Citadel Hoarfrost. While not as large or majestic as many of the dwarven citadels to the west, Citadel Hoarfrost is still a self-sustaining settlement that is home to all manner of capable teachers and mentors.

You have specifically trained for the life of an explorer, and that training has been tailored to your chosen path. Once your training is complete, you will serve your citadel by venturing outside its halls and tunnels to explore the surrounding lands, escort caravans, put down threats to your home, and many other tasks suited to your training.

Skill Proficiencies: Three of your choice [History, Perception, and Pesuasion]
Tool Proficiencies: One of your choice [Navigator's Tools]
Languages: One of your choice [Giant]

Feature [Respected Neighbor]: Fearlessness in battle, expertly crafted weapons, and a passion for making fine ale have all helped your kin earn the respect of their neighbors. As such, the jagged mountain peaks that mark the banner Citadel Hoarfrost are well received in all lands within a tenday walk of your home. This respect makes it easy for you to buy and sell goods, acquire services, and gain access to important community leaders.

PALADIN

Whatever their origin and their mission, paladins are united by their oaths to stand against the forces of evil. Whether sworn before a god's altar and the witness of a priest, in a sacred glade before nature spirits and fey beings, or in a moment of desperation and grief with the dead as the only witness, a paladin's oath is a powerful bond. It is a source of power that turns a devout warrior into a blessed champion.

HIT POINTS

Hit Dice: 1d10 per paladin level

Hit Points at 1st Level: 10 + your Constitution modifier

Hit Points at Higher Levels: 1d 10 (or 6) + your Constitution modifier per paladin level after 1st

PROFICIENCIES

Armor: All armor, shields

Weapons: Simple weapons, martial weapons

Tools: None

Saving Throws: Wisdom, Charisma

Skills: Choose two from Athletics, Insight, Intimidation, Medicine, Persuasion, and Religion

CLASS FEATURES

As a paladin, you gain the following class features.

Divine Sense: The presence of strong evil registers on your senses like a noxious odor, and powerful good rings like heavenly music in your ears. As an action, you can open your awareness to detect such forces. Until the end of your next turn, you know the location of any celestial, fiend, or undead within 60 feet of you that is not behind total cover. You know the type (celestial, fiend, or undead) of any being w hose presence you sense, but not its identity (the vampire Count Strahd von Zarovich, for instance). Within the same radius, you also detect the presence of any place or object that has been consecrated or desecrated, as with the hallow spell.

You can use this feature a number of times equal to 1 + your Charisma modifier. When you finish a long rest, you regain all expended uses.

This feature has no effect on undead and constructs.

Lay On Hands: Your blessed touch can heal wounds. You have a pool of healing power that replenishes when you take a long rest. With that pool, you can restore a total number of hit points equal to your paladin level x 5.

As an action, you can touch a creature and draw power from the pool to restore a number of hit points to that creature, up to the maximum amount remaining in your pool.

Alternatively, you can expend 5 hit points from your pool of healing to cure the target of one disease or neutralize one poison affecting it. You can cure multiple diseases and neutralize multiple poisons with a single use of Lay on Hands, expending hit points separately for each one.

Fighting Style [Dueling]: At 2nd level, you adopt a style of fighting as your specialty. *Dueling:* When you are wielding a melee weapon in one hand and no other weapons, you gain a +2 bonus to damage rolls with that weapon.

Divine Smite: Starting at 2nd level, when you hit a creature with a melee weapon attack, you can expend one paladin spell slot to deal radiant damage to the target, in addition to the weapon's damage. The extra damage is 2d8 for a 1st-level spell slot, plus 1d8 for each spell level higher than 1st, to a maximum of 5d8. The damage increases by 1d8 if the target is an undead or a fiend.

Divine Health: By 3rd level, the divine magic flowing through you makes you immune to disease.

SPELLCASTING

By 2nd level, you have learned to draw on divine magic through meditation and prayer to cast spells as a cleric does. See chapter 10 for the general rules of spellcasting and chapter 11 for the paladin spell list.

Preparing and Casting Spells: The Paladin table shows how many spell slots you have to cast your spells. To cast one of your paladin spells of 1st level or higher, you must expend a slot of the spell's level or higher. You regain all expended spell slots when you finish a long rest.

You prepare the list of paladin spells that are available for you to cast, choosing from the paladin spell list. When you do so, choose a number of paladin spells equal to your Charisma modifier + half your paladin level, rounded down (minimum of one spell). The spells must be of a level for which you have spell slots.

For example, if you are a 5th-level paladin, you have four 1st-level and two 2nd-level spell slots. With a Charisma of 14, your list of prepared spells can include four spells of 1st or 2nd level, in any combination. If you prepare the 1st-level spell cure wounds, you can cast it using a 1st-level or a 2nd-level slot. Casting the spell doesn't remove it from your list of prepared spells.

You can change your list of prepared spells when you finish a long rest. Preparing a new list of paladin spells requires time spent in prayer and meditation: at least 1 minute per spell level for each spell on your list.

Spellcasting Ability: Charisma is your spellcasting ability for your paladin spells, since their power derives from the strength of your convictions. You use your Charisma whenever a spell refers to your spellcasting ability. In addition, you use your Charisma modifier when setting the saving throw DC for a paladin spell you cast and when making an attack roll with one.

Spell save DC: Your spell Save DC equals 8 + your proficiency bonus + your Charisma modifier

Spell attack modifier: Your spell attack modifier equals your proficiency bonus + your Charisma modifier

Spellcasting Focus: You can use a holy symbol (found in chapter 5) as a spellcasting focus for your paladin spells.

SACRED OATH

When you reach 3rd level, you swear the oath that binds you as a paladin forever. Up to this time you have been in a preparatory stage, committed to the path but not yet sworn to it. Now you choose the Oath of Devotion, the Oath of the Ancients, or the Oath of Vengeance, all detailed at the end of the class description.

Your choice grants you features at 3rd level and again at 7th, 15th, and 20th level. Those features include oathspells and the Channel Divinity feature.

Oath Spells: Each oath has a list of associated spells. You gain access to these spells at the levels specified in the oath description. Once you gain access to an oath spell, you always have it prepared. Oath spells don't count against the number of spells you can prepare each day.

If you gain an oath spell that doesn't appear on the paladin spell list, the spell is nonetheless a paladin spell for you.

Channel Divinity: Your oath allows you to channel divine energy to fuel magical effects. Each Channel Divinity option provided by your oath explains how to use it.

When you use your Channel Divinity, you choose which option to use. You must then finish a short or long rest to use your Channel Divinity again.

Some Channel Divinity effects require saving throws. When you use such an effect from this class, the DC equals your paladin spell save DC.

ADDITIONAL INFORMATION

Sacred Oath

Becoming a paladin involves taking vows that commit the paladin to the cause of righteousness, an active path of fighting wickedness. The final oath is the culmination of all the paladin's training. Some characters with this class don't consider themselves true paladins until they have made this oath. For others, the oath is a formality, an official stamp on what has always been true in the paladin's heart.

Breaking Your Oath: A paladin tries to hold to the highest standards of conduct, but even the most virtuous paladin is fallible. Sometimes the right path proves too demanding, sometimes a situation calls for the lesser of two evils, and sometimes the heat of emotion causes a paladin to transgress his or her oath.

A paladin who has broken a vow typically seeks absolution from a cleric who shares his or her faith or from another paladin of the same order. The paladin might spend an all night vigil in prayer as a sign of penitence, or undertake a fast or similar act of self-denial. After a rite of confession and forgiveness, the paladin starts fresh.

If a paladin willfully violates his or her oath and shows no sign of repentance, the consequences can be more serious. At the DM's discretion, an impenitent paladin might be forced to abandon this class and adopt another, or perhaps to take the Oathbreaker paladin option that appears in the Dungeon Master's Guide.

Oath of Devotion

The Oath of Devotion binds a paladin to the loftiest ideals of justice, virtue, and order. Sometimes called cavaliers, white knights, or holy warriors, these paladins meet the ideal of the knight in shining armor, acting with honor in pursuit of justice and the greater good. They hold themselves to the highest standards of conduct, and some, for better or w orse, hold the rest of the world to the same standards. Many who swear this oath are devoted to gods of law and good and use their gods' tenets as the measure of their devotion. They hold angels—the perfect servants of good—as their ideals, and incorporate images of angelic wings into their helmets or coats of arms.

Tenets of Devotion: Though the exact words and strictures of the Oath of Devotion vary, paladins of this oath share these tenets.

Honesty . Don't lie or cheat. Let your word be your promise.

Courage. Never fear to act, though caution is wise.

Compassion. Aid others, protect the weak, and punish those who threaten them. Show mercy to your foes, but temper it with wisdom.

Honor. Treat others with fairness, and let your honorable deeds be an example to them. Do as much good as possible while causing the least amount of harm.

Duty. Be responsible for your actions and their consequences, protect those entrusted to your care, and obey those w ho have just authority over you.

Oath Spells: You gain oath spells at the paladin levels listed.

3rd *protection from evil and good, sanctuary*
5th *lesser restoration, zone of truth*
9th *beacon of hope, dispel magic*
13th *freedom of movement, guardian of faith*
17th *commune, flame strike*

Channel Divinity: When you take this oath at 3rd level, you gain the following two Channel Divinity options.

Sacred Weapon. As an action, you can imbue one weapon that you are holding with positive energy, using your Channel Divinity. For 1 minute, you add your Charisma modifier to attack rolls made with that weapon (with a minimum bonus of +1). The weapon also emits bright light in a 20-foot radius and dim light 20 feet beyond that. If the weapon is not already magical, it becomes magical for the duration.

You can end this effect on your turn as part of any other action. If you are no longer holding or carrying this weapon, or if you fall unconscious, this effect ends.

ADDITIONAL INFORMATION

Turn the Unhoy. As an action, you present your holy symbol and speak a prayer censuring fiends and undead, using your Channel Divinity. Each fiend or undead that can see or hear you within 30 feet of you must make a W isdom saving throw. If the creature fails its saving throw, it is turned for 1 minute or until it takes damage.

A turned creature must spend its turns trying to move as far away from you as it can, and it can't willingly move to a space within 30 feet of you. It also can't take reactions. For its action, it can use only the Dash action or try to escape from an effect that prevents it from moving. If there's nowhere to move, the creature can use the Dodge action.

Paladin Spells: 1st Level

Bless
1st-level enchantment

Casting Time: 1 action
Range: 30 feet
Components: V, S, M (a sprinkling of holy water)
Duration: Concentration, up to 1 minute

You bless up to three creatures of your choice within range. Whenever a target makes an attack roll or a saving throw before the spell ends, the target can roll a d4 and add the number rolled to the attack roll or saving throw.

At Higher Levels. When you cast this spell using a spell slot of 2nd level or higher, you can target one additional creature for each slot level above 1st.

Command
1st-level enchantment

Casting Time: 1 action
Range: 60 feet
Components: V
Duration: 1 round

You speak a one-word command to a creature you can see within range. The target must succeed on a Wisdom saving throw or follow the command on its next turn. The spell has no effect if the target is undead, if it doesn't understand your language, or if your command is directly harmful to it.

Some typical commands and their effects follow. You might issue a command other than one described here. If you do so, the DM determines how the target behaves. If the target can't follow your command, the spell ends.

Approach. The target moves toward you by the shortest and most direct route, ending its turn if it moves within 5 feet of you.

Drop. The target drops whatever it is holding and then ends its turn.

Flee. The target spends its turn moving away from you by the fastest available means.

Grovel. The target falls prone and then ends its turn.

Halt. The target doesn't move and takes no actions. A flying creature stays aloft, provided that it is able to do so. If it must move to stay aloft, it flies the minimum distance needed to remain in the air.

At Higher Levels. When you cast this spell using a spell slot of 2nd level or higher, you can affect one additional creature for each slot level above 1st. The creatures must be within 30 feet of each other when you target them.

Cure Wounds
1st-level evocation

Casting Time: 1 action
Range: Touch
Components: V, S
Duration: Instantaneous

A creature you touch regains a number of hit points equal to 1d8 + your spellcasting ability modifier. This spell has no effect on undead or constructs.

At Higher Levels. When you cast this spell using a spell slot of 2nd level or higher, the healing increases by 1d8 for each slot level above 1st.

Detect Evil and Good
1st-level divination

Casting Time: 1 action
Range: Self
Components: V, S
Duration: Concentration, up to 10 minutes

For the duration, you know if there is an aberration, celestial, elemental, fey, fiend, or undead within 30 feet of you, as well as where the creature is located. Similarly, you know if there is a place or object within 30 feet of you that has been magically consecrated or desecrated.

The spell can penetrate most barriers, but it is blocked by 1 foot of stone, 1 inch of common metal, a thin sheet of lead, or 3 feet of wood or dirt.

Detect Magic
1st-level divination (ritual)

Casting Time: 1 action
Range: Self
Components: V, S
Duration: Concentration, up to 10 minutes

For the duration, you sense the presence of magic within 30 feet of you. If you sense magic in this way, you can use your action to see a faint aura around any visible creature or object in the area that bears magic, and you learn its school of magic, if any.

The spell can penetrate most barriers, but it is blocked by 1 foot of stone, 1 inch of common metal, a thin sheet of lead, or 3 feet of wood or dirt.

Detect Poison and Disease
1st-level divination (ritual)

Casting Time: 1 action
Range: Self

Components: V, S, M (a yew leaf)
Duration: Concentration, up to 10 minutes

For the duration, you can sense the presence and location of poisons, poisonous creatures, and diseases within 30 feet of you. You also identify the kind of poison, poisonous creature, or disease in each case.

The spell can penetrate most barriers, but it is blocked by 1 foot of stone, 1 inch of common metal, a thin sheet of lead, or 3 feet of wood or dirt.

Divine Favor

1st-level evocation

Casting Time: 1 bonus action
Range: Self
Components: V, S
Duration: Concentration, up to 1 minute

Your prayer empowers you with divine radiance. Until the spell ends, your weapon attacks deal an extra 1d4 radiant damage on a hit.

Heroism

1st-level enchantment

Casting Time: 1 action
Range: Touch
Components: V, S
Duration: Concentration, up to 1 minute

A willing creature you touch is imbued with bravery. Until the spell ends, the creature is immune to being frightened and gains temporary hit points equal to your spellcasting ability modifier at the start of each of its turns. When the spell ends, the target loses any remaining temporary hit points from this spell.

At Higher Levels. When you cast this spell using a spell slot of 2nd level or higher, you can target one additional creature for each slot level above 1st.

Protection from Evil and Good

1st-level abjuration

Casting Time: 1 action
Range: Touch
Components: V, S, M (holy water or powdered silver and iron, which the spell consumes)
Duration: Concentration up to 10 minutes

Until the spell ends, one willing creature you touch is protected against certain types of creatures: aberrations, celestials, elementals, fey, fiends, and undead.

The protection grants several benefits. Creatures of those types have disadvantage on attack rolls against the target. The target also can't be charmed, frightened, or possessed by them. If the target is already charmed, frightened, or possessed by such a creature, the target has advantage on any new saving throw against the relevant effect.

Purify Food and Drink

1st-level transmutation (ritual)

Casting Time: 1 action
Range: 10 feet
Components: V, S
Duration: Instantaneous

All nonmagical food and drink within a 5-foot-radius sphere centered on a point of your choice within range is purified and rendered free of poison and disease.

Sanctuary

1st-level abjuration

Casting Time: 1 bonus action
Range: 30 feet
Components: V, S, M (a small silver mirror)
Duration: 1 minute

You ward a creature within range against attack. Until the spell ends, any creature who targets the warded creature with an attack or a harmful spell must first make a Wisdom saving throw. On a failed save, the creature must choose a new target or lose the attack or spell. This spell doesn't protect the warded creature from area effects, such as the explosion of a fireball.

If the warded creature makes an attack or casts a spell that affects an enemy creature, this spell ends.

Shield of Faith

1st-level abjuration

Casting Time: 1 bonus action
Range: 60 feet
Components: V, S, M (a small parchment with a bit of holy text written on it)
Duration: Concentration, up to 10 minutes

A shimmering field appears and surrounds a creature of your choice within range, granting it a +2 bonus to AC for the duration.

PERSONALITY

Berend and his brother Vondal belong to the Stonemantle clan, a group of dwarves in Citadel Hoarfrost with a long and proud warrior history. The two brothers have always been competitive, and this outing will prove no different, as they have wagered a bottle of dwarven summer ale to whoever claims the most foes.

MANNERISMS & APPEARANCE

Often surly and gruff, Berend is a fine warrior who always looks out for the rest of his party. He isn't shy about using his clan's name while fighting, commonly shouting out their favorite battle cry, "for Stonemantel!" during fights.

CLASS FEATURES

As a fighter, you have the following class features.

Fighting Style [Great Weapon Fighting]: When you roll a 1 or 2 on a damage die for an attack you make with a melee weapon that you are wielding with two hands, you can reroll the die and must use the new roll. The weapon must have the two-handed or versatile property for you to gain this benefit.

Second Wind: You have a limited well of stamina that you can draw on to protect yourself from harm. On your turn, you can use a bonus action to regain hit points equal to 1d10 + your fighter level.

Once you use this feature, you must finish a short or long rest before you can use it again.

Action Surge: Starting at 2nd level, you can push yourself beyond your normal limits for a moment. On your turn, you can take one additional action on top of your regular action and a possible bonus action.
Once you use this feature, you must finish a short or long rest before you can use it again. Starting at 17th level, you can use it twice before a rest, but only once on the same turn.

Martial Archetype: At 3rd level, you choose an archetype that you strive to emulate in your combat styles and techniques. Your archetype grants you features at 3rd level and again at 7th, 10th, 15th, and 18th level.

Champion Fighter Archtype: The archetypal Champion focuses on the development of raw physical power honed to deadly perfection. Those who model themselves on this archetype combine rigorous training with physical excellence to deal devastating blows.

Improved Critical: Beginning when you choose this archetype at 3rd level, your weapon attacks score a critical hit on a roll of 19 or 20.

RACE & BACKGROUND INFORMATION

MOUNTAIN DWARF TRAITS

As a mountain dwarf, you're strong and hardy, accustomed to a difficult life in rugged terrain. You're probably on the tall side (for a dwarf), and tend toward lighter coloration. Your dwarf character has an assortment of inborn abilities, part and parcel of dwarven nature.

Ability Score Increase. Your Strength and Constitution scores both increase by 2.

Age. Dwarves mature at the same rate as humans, but they're considered young until they reach the age of 50. On average, they live about 350 years.

Alignment. Most dwarves are lawful, believing firmly in the benefits of a well-ordered society. They tend toward good as well, with a strong sense of fair play and a belief that everyone deserves to share in the benefits of a just order.

Size. Dwarves stand between 4 and 5 feet tall and average about 150 pounds. Your size is Medium.

Speed. Your base walking speed is 25 feet. Your speed is not reduced by wearing heavy armor.

Darkvision. Accustomed to life underground, you have superior vision in dark and dim conditions. You can see in dim light within 60 feet of you as if it were bright light, and in darkness as if it were dim light. You can't discern color in darkness, only shades of gray.

Dwarven Resilience. You have advantage on saving throws against poison, and you have resistance against poison damage (explained in chapter 9).

You have specifically trained for the life of an explorer, and that training has been tailored to your chosen path. Once your training is complete, you will serve your citadel by venturing outside its halls and tunnels to explore the surrounding lands, escort caravans, put down threats to your home, and many other tasks suited to your training.

Skill Proficiencies: Three of your choice [Investigation, Perception, and Survival]

Tool Proficiencies: One of your choice [Smith's Tools]

CLERIC

Clerics are intermediaries between the mortal world and the distant planes of the gods. As varied as the gods they serve, clerics strive to embody the handiwork of their deities. No ordinary priest, a cleric is imbued with divine magic

HIT POINTS

Hit Dice: 1d8 per cleric level

Hit Points at 1st Level: 8 + your Constitution modifier

Hit Points at Higher Levels: 1d8 (or 5) + your Constitution modifier per cleric level after 1st

PROFICIENCIES

Armor: Light armor, medium armor, shields

Weapons: All simple weapons

Tools: None

Saving Throws: Wisdom, Charisma

Skills: Choose two from History, Insight, Medicine, Persuasion, and Religion

DIVINE DOMAIN: LIFE

The Life domain focuses on the vibrant positive energy—one of the fundamental forces of the universe—that sustains all life. The gods of life promote vitality and health through healing the sick and wounded, caring for those in need, and driving away the forces of death and undeath.

Life domain spells: 1st level: *Bless, Cure Wounds*

3rd level: *Lesser Restoration, Spititual Weapon*

Bonus Proficiency: When you choose this domain at 1st level, you gain proficiency with heavy armor.

Disciple of Life: Also starting at 1st level, your healing spells are more effective. Whenever you use a spell of 1st level or higher to restore hit points to a creature, the creature regains additional hit points equal to 2 + the spell's level.

Channel Divinity: At 2nd level, you gain the ability to channel divine energy directly from your deity, using that energy to fuel magical effects. You start with two such effects: Turn Undead and an effect determined by your domain. Some domains grant you additional effects as you advance in levels, as noted in the domain description.

When you use your Channel Divinity, you choose which effect to create. You must then finish a short or long rest to use your Channel Divinity again.

Some Channel Divinity effects require saving throws. When you use such an effect from this class, the DC equals your cleric spell save DC.

Beginning at 6th level, you can use your Channel Divinity twice between rests, and beginning at 18th level, you can use it three times between rests. When you finish a short or long rest, you regain your expended uses.

Channel Divinity: Turn Undead: As an action, you present your holy symbol and speak a prayer censuring the undead. Each undead that can see or hear you within 30 feet of you must make a Wisdom saving throw. If the creature fails its saving throw, it is turned for 1 minute or until it takes any damage.

A turned creature must spend its turns trying to move as far away from you as it can, and it can't willingly move to a space within 30 feet of you. It also can't take reactions. For its action, it can use only the Dash action or try to escape from an effect that prevents it from moving. If there's nowhere to move, the creature can use the Dodge action.

Channel Divinity: Preserve Life: Starting at 2nd level, you can use your Channel Divinity to heal the badly injured.

As an action, you present your holy symbol and evoke healing energy that can restore a number of hit points equal to five times your cleric level. Choose any creatures within 30 feet of you, and divide those hit points among them. This feature can restore a creature to no more than half of its hit point maximum. You can't use this feature on an undead or a construct.

SPELLCASTING

As a conduit for divine power, you can cast cleric spells.

Cantrips: At 1st level, you know three cantrips of your choice from the cleric spell list. You learn additional cleric cantrips of your choice at higher levels, as shown in the Cantrips Known column of the Cleric table.

Preparing and Casting Spells: The Cleric table shows how many spell slots you have to cast your spells of 1st level and higher. To cast one of these spells, you must expend a slot of the spell's level or higher. You regain all expended spell slots when you finish a long rest.

You prepare the list of cleric spells that are available for you to cast, choosing from the cleric spell list. When you do so, choose a number of cleric spells equal to your Wisdom modifier + your cleric level (minimum of one spell). The spells must be of a level for which you have spell slots.

For example, if you are a 3rd-level cleric, you have four 1st-level and two 2nd-level spell slots. With a Wisdom of 16, your list of prepared spells can include six spells of 1st or 2nd level, in any combination. If you prepare the 1st-level spell cure wounds, you can cast it using a 1st-level or 2nd-level slot. Casting the spell doesn't remove it from your list of prepared spells.

You can change your list of prepared spells when you finish a long rest. Preparing a new list of cleric spells requires time spent in prayer and meditation: at least 1 minute per spell level for each spell on your list.

Spellcasting Ability: Wisdom is your spellcasting ability for your cleric spells. The power of your spells comes from your devotion to your deity. You use your Wisdom whenever a cleric spell refers to your spellcasting ability. In addition, you use your Wisdom modifier when setting the saving throw DC for a cleric spell you cast and when making an attack roll with one.

Spell save DC: Your spell Save DC equals 8 + your proficiency bonus + your Wisdom modifier

Spell attack modifier: You spell attack modifier equals your proficiency bonus + your Wisdom modifier

Ritual Casting: You can cast a cleric spell as a ritual if that spell has the ritual tag and you have the spell prepared.

Spellcasting Focus: You can use a holy symbol (found in chapter 5) as a spellcasting focus for your cleric spells.

DEITY

Moradin: The All-Father forged the dwarf race from gems and precious metals and imbued the dwarves with souls with the strike of his mighty hammer. Moradin is revered by dwarves, blacksmiths, and those who work with gems or metals. The Soul Forger is stern, stubborn, and uncompromising, but tireless and brave in the defense of his creations. He demands the following of his worshipers:

- Respect and honor your traditions.
- Do not flinch in the face of danger.
- Seek out the riches buried in the heart of the world, and forge them into great works of art.

Cleric Spells: 0 Level (Cantrips)

Guidance
Divination cantrip

Casting Time: 1 action
Range: Touch
Components: V, S
Duration: Concentration, up to 1 minute

You touch one willing creature. Once before the spell ends, the target can roll a d4 and add the number rolled to one ability check of its choice. It can roll the die before or after making the ability check. The spell then ends.

Resistance
Abjuration cantrip

Casting Time: 1 action
Range: Touch
Components: V, S, M (a miniature cloak)
Duration: Concentration, up to 1 minute

You touch one willing creature. Once before the spell ends, the target can roll a d4 and add the number rolled to one saving throw of its choice. It can roll the die before or after making the saving throw. The spell then ends.

Sacred Flame
Evocation cantrip

Casting Time: 1 action
Range: 60 feet
Components: V, S
Duration: Instantaneous

Flame-like radiance descends on a creature that you can see within range. The target must succeed on a Dexterity saving throw or take 1d8 radiant damage. The target gains no benefit from cover for this saving throw.

The spell's damage increases by 1d8 when you reach 5th level (2d8), 11th level (3d8), and 17th level (4d8).

Cleric Spells: 1st Level

Bless
1st-level enchantment

Casting Time: 1 action
Range: 30 feet
Components: V, S, M (a sprinkling of holy water)
Duration: Concentration, up to 1 minute

You bless up to three creatures of your choice within range. Whenever a target makes an attack roll or a saving throw before the spell ends, the target can roll a d4 and add the number rolled to the attack roll or saving throw.

At Higher Levels. When you cast this spell using a spell slot of 2nd level or higher, you can target one additional creature for each slot level above 1st.

Command
1st-level enchantment

Casting Time: 1 action
Range: 60 feet
Components: V
Duration: 1 round

You speak a one-word command to a creature you can see within range. The target must succeed on a Wisdom saving throw or follow the command on its next turn. The spell has no effect if the target is undead, if it doesn't understand your language, or if your command is directly harmful to it.

Some typical commands and their effects follow. You might issue a command other than one described here. If you do so, the DM determines how the target behaves. If the target can't follow your command, the spell ends.

Approach. The target moves toward you by the shortest and most direct route, ending its turn if it moves within 5 feet of you.

Drop. The target drops whatever it is holding and then ends its turn.

Flee. The target spends its turn moving away from you by the fastest available means.

Grovel. The target falls prone and then ends its turn.

Halt. The target doesn't move and takes no actions. A flying creature stays aloft, provided that it is able to do so. If it must move to stay aloft, it flies the minimum distance needed to remain in the air.

At Higher Levels. When you cast this spell using a spell slot of 2nd level or higher, you can affect one additional creature for each slot level above 1st. The creatures must be within 30 feet of each other when you target them.

Cure Wounds
1st-level evocation

Casting Time: 1 action
Range: Touch
Components: V, S
Duration: Instantaneous

A creature you touch regains a number of hit points equal to 1d8 + your spellcasting ability modifier. This spell has no effect on undead or constructs.

At Higher Levels. When you cast this spell using a spell slot of 2nd level or higher, the healing increases by 1d8 for each slot level above 1st.

Detect Magic
1st-level divination (ritual)

Casting Time: 1 action
Range: Self
Components: V, S
Duration: Concentration, up to 10 minutes

For the duration, you sense the presence of magic within 30 feet of you. If you sense magic in this way, you can use your action to see a faint aura around any visible creature or object in the area that bears magic, and you learn its school of magic, if any.

The spell can penetrate most barriers, but it is blocked by 1 foot of stone, 1 inch of common metal, a thin sheet of lead, or 3 feet of wood or dirt.

Guiding Bolt
1st-level evocation

Casting Time: 1 action
Range: 120 feet
Components: V, S
Duration: 1 round

A flash of light streaks toward a creature of your choice within range. Make a ranged spell attack against the target. On a hit, the target takes 4d6 radiant damage, and the next attack roll made against this target before the end of your next turn has advantage, thanks to the mystical dim light glittering on the target until then.

At Higher Levels. When you cast this spell using a spell slot of 2nd level or higher, the damage increases by 1d6 for each slot level above 1st.

Healing Word
1st-level evocation

Casting Time: 1 bonus action
Range: 60 feet
Components: V
Duration: Instantaneous

A creature of your choice that you can see within range regains hit points equal to 1d4 + your spellcasting ability modifier. This spell has no effect on undead or constructs.

Make a melee spell attack against a creature you can reach. On a hit, the target takes 3d10 necrotic damage.

At Higher Levels. When you cast this spell using a spell slot of 2nd level or higher, the damage increases by 1d10 for each slot level above 1st.

Sanctuary
1st-level abjuration

Casting Time: 1 bonus action
Range: 30 feet
Components: V, S, M (a small silver mirror)
Duration: 1 minute

You ward a creature within range against attack. Until the spell ends, any creature who targets the warded creature with an attack or a harmful spell must first make a Wisdom saving throw. On a failed save, the creature must choose a new target or lose the attack or spell. This spell doesn't protect the warded creature from area effects, such as the explosion of a fireball.

If the warded creature makes an attack or casts a spell that affects an enemy creature, this spell ends.

Shield of Faith
1st-level abjuration

Casting Time: 1 bonus action
Range: 60 feet
Components: V, S, M (a small parchment with a bit of holy text written on it)
Duration: Concentration, up to 10 minutes

Components: V, S, M (specially marked sticks, bones, or similar tokens worth at least 25 gp)
Duration: Instantaneous

By casting gem-inlaid sticks, rolling dragon bones, laying out ornate cards, or employing some other divining tool, you receive an omen from an otherworldly entity about the results of a specific course of action that you plan to take within the next 30 minutes. The GM chooses from the following possible omens:

- Weal, for good results
- Woe, for bad results
- Weal and woe, for both good and bad results
- Nothing, for results that aren't especially good or bad

The spell doesn't take into account any possible circumstances that might change the outcome, such as the casting of additional spells or the loss or gain of a companion.

If you cast the spell two or more times before completing your next long rest, there is a cumulative 25 percent chance for each casting after the first that you get a random reading. The GM makes this roll in secret.

Gentle Repose
2nd-level necromancy (ritual)

Casting Time: 1 action
Range: Touch
Components: V, S, M (a pinch of salt and one copper piece placed on each of the corpse's eyes, which must remain there for the duration)
Duration: 10 days

You touch a corpse or other remains. For the duration, the target is protected from decay and can't become undead.

The spell also effectively extends the time limit on raising the target from the dead, since days spent under the influence of this spell don't count against the time limit of spells such as **raise dead**.

Hold Person
2nd-level enchantment

Casting Time: 1 action
Range: 60 feet
Components: V, S, M (a small, straight piece of iron)
Duration: Concentration, up to 1 minute

Choose a humanoid that you can see within range. The target must succeed on a Wisdom saving throw or be paralyzed for the duration. At the end of each of its turns, the target can make another Wisdom saving throw. On a success, the spell ends on the target.

At Higher Levels. When you cast this spell using a spell slot of 3rd level or higher, you can target one additional humanoid for each slot level above 2nd. The humanoids must be within 30 feet of each other when you target them.

Lesser Restoration
2nd-level abjuration

Casting Time: 1 action
Range: Touch
Components: V, S
Duration: Instantaneous

You touch a creature and can end either one disease or one condition afflicting it. The condition can be blinded, deafened, paralyzed, or poisoned.

Prayer of Healing
2nd-level evocation

Casting Time: 10 minutes
Range: 30 feet
Components: V
Duration: Instantaneous

Up to six creatures of your choice that you can see within range each regain hit points equal to 2d8 + your spellcasting ability modifier. This spell has no effect on undead or constructs.

At Higher Levels. When you cast this spell using a spell slot of 3rd level or higher, the healing increases by 1d8 for each slot level above 2nd.

Silence
2nd-level illusion (ritual)

Casting Time: 1 action
Range: 120 feet
Components: V, S
Duration: Concentration, up to 10 minutes

For the duration, no sound can be created within or pass through a 20-foot-radius sphere centered on a point you choose within range. Any creature or object entirely inside the sphere is immune to thunder damage, and creatures are deafened while entirely inside it. Casting a spell that includes a verbal component is impossible there.

Spiritual Weapon
2nd-level evocation

Casting Time: 1 bonus action
Range: 60 feet
Components: V, S
Duration: 1 minute

You create a floating, spectral weapon within range that lasts for the duration or until you cast this spell again. When you cast the spell, you can make a melee spell attack against a creature within 5 feet of the weapon. On a hit, the target takes force damage equal to 1d8 + your spellcasting ability modifier.

As a bonus action on your turn, you can move the weapon up to 20 feet and repeat the attack against a creature within 5 feet of it.

The weapon can take whatever form you choose. Clerics of deities who are associated with a particular weapon (as St. Cuthbert is known for his mace and Thor for his hammer) make this spell's effect resemble that weapon.

At Higher Levels. When you cast this spell using a spell slot of 3rd level or higher, the damage increases by 1d8 for every two slot levels above 2nd.

Warding Bond
2nd-level abjuration

Casting Time: 1 action
Range: Touch
Components: V, S, M (a pair of platinum rings worth at least 50 gp each, which you and the target must wear for the duration)
Duration: 1 hour

This spell wards a willing creature you touch and creates a mystic connection between you and the target until the spell ends. While the target is within 60 feet of you, it gains a +1 bonus to AC and saving throws, and it has resistance to all damage. Also, each time it takes damage, you take the same amount of damage.

The spell ends if you drop to 0 hit points or if you and the target become separated by more than 60 feet. It also ends if the spell is cast again on either of the connected creatures. You can also dismiss the spell as an action.

PERSONALITY

Travok is quiet, attentive, and calculating, He does his best to keep his thoughts and intentions hidden. When confronted or placed on the spot, he typically fanes detachment, even going so far as to act a fop or a dandy to maintain his facade.

MANNERISMS & APPEARANCE

Travok has forsaken the traditional lengthy beard most dwarven males wear in favor of a short chin beard that he keeps well-oiled and trimmed to a point.

ROGUE

Rogues rely on skill, stealth, and their foes' vulnerabilities to get the upper hand in any situation. They have a knack for finding the solution to just about any problem, demonstrating a resourcefulness and versatility that is the cornerstone of any successful adventuring party.

HIT POINTS

Hit Dice: 1d8 per rogue level

Hit Points at 1st Level: 8 + your Constitution modifier

Hit Points at Higher Levels: 1d8 (or 5) + your Constitution modifier per rogue level after 1st

PROFICIENCIES

Armor: Light armor

Weapons: Simple weapons, hand crossbows, longswords, rapiers, shortswords

Tools: Thieves' tools

Saving Throws: Dexterity, Intelligence

Skills: Choose four from Acrobatics, Athletics, Deception, Insight, Intimidation, Investigation, Perception, Performance, Persuasion, Sleight of Hand, and Stealth

CLASS FEATURES

As a rogue, you have the following class features.

Expertise: At 1st level, choose two of your skill proficiencies, or one of your skill proficiencies and your proficiency with thieves' tools. Your proficiency bonus is doubled for any ability check you make that uses either of the chosen proficiencies.

Sneak Attack: Beginning at 1st level, you know how to strike subtly and exploit a foe's distraction. Once per turn, you can deal an extra 1d6 damage to one creature you hit with an attack if you have advantage on the attack roll. The attack must use a finesse or a ranged weapon.

You don't need advantage on the attack roll if another enemy of the target is within 5 feet of it, that enemy isn't incapacitated, and you don't have disadvantage on the attack roll.

The amount of the extra damage increases as you gain levels in this class, as shown in the Sneak Attack column of the Rogue table.

Thieves' Cant: During your rogue training you learned thieves' cant, a secret mix of dialect, jargon, and code that allows you to hide messages in seemingly normal conversation. Only another creature that knows thieves' cant understands such messages. It takes four times longer to convey such a message than it does to speak the same idea plainly.

In addition, you understand a set of secret signs and symbols used to convey short, simple messages, such as whether an area is dangerous or the territory of a thieves' guild, whether loot is nearby, or whether the people in an area are easy marks or will provide a safe house for thieves on the run.

Cunning Action: Starting at 2nd level, your quick thinking and agility allow you to move and act quickly. You can take a bonus action on each of your turns in combat. This action can be used only to take the Dash, Disengage, or Hide action.

Roguish Archetype: Thief: You hone your skills in the larcenous arts. Burglars, bandits, cutpurses, and other criminals typically follow this archetype, but so do rogues who prefer to think of themselves as treasure seekers, explorers, delvers, and investigators.

Fast Hands: Starting at 3rd level, you can use the bonus action granted by your Cunning Action to make a Dexterity (Sleight of Hand) check, use your thieves' tools to disarm a trap or open a lock, or take the Use an Object action.

Second-Story Work: When you choose this archetype at 3rd level, you gain the ability to climb faster than normal; climbing no longer costs you extra movement. In addition, when you make a running jump, the distance you cover increases by a number of feet equal to your Dexterity modifier.

RACE & BACKGROUND INFORMATION

MOUNTAIN DWARF TRAITS

As a mountain dwarf, you're strong and hardy, accustomed to a difficult life in rugged terrain. You're probably on the tall side (for a dwarf), and tend toward lighter coloration. Your dwarf character has an assortment of inborn abilities, part and parcel of dwarven nature.

Ability Score Increase. Your Strength and Constitution scores both increase by 2.

Age. Dwarves mature at the same rate as humans, but they're considered young until they reach the age of 50. On average, they live about 350 years.

Alignment. Most dwarves are lawful, believing firmly in the benefits of a well-ordered society. They tend toward good as well, with a strong sense of fair play and a belief that everyone deserves to share in the benefits of a just order.

Size. Dwarves stand between 4 and 5 feet tall and average about 150 pounds. Your size is Medium.

Speed. Your base walking speed is 25 feet. Your speed is not reduced by wearing heavy armor.

Darkvision. Accustomed to life underground, you have superior vision in dark and dim conditions. You can see in dim light within 60 feet of you as if it were bright light, and in darkness as if it were dim light. You can't discern color in darkness, only shades of gray.

Dwarven Resilience. You have advantage on saving throws against poison, and you have resistance against poison damage (explained in chapter 9).

Dwarven Armor Training. You have proficiency with light and medium armor.

Dwarven Combat Training. You have proficiency with the battleaxe, handaxe, throwing hammer, and warhammer.

Tool Proficiency. You gain proficiency with the artisan's tools of your choice: smith's tools, brewer's supplies, or mason's tools.

Stonecunning. Whenever you make an Intelligence (History) check related to the origin of stonework, you are considered proficient in the History skill and add double your proficiency bonus to the check, instead of your normal proficiency bonus.

Languages. You can speak, read, and write Common and Dwarvish. Dwarvish is full of hard consonants and guttural sounds, and those characteristics spill over into whatever other language a dwarf might speak.

BACKGROUND: HOARFROST EXPLORER

You have been raised and trained within the halls of Citadel Hoarfrost. While not as large or majestic as many of the dwarven citadels to the west, Citadel Hoarfrost is still a self-sustaining settlement that is home to all manner of capable teachers and mentors.

You have specifically trained for the life of an explorer, and that training has been tailored to your chosen path. Once your training is complete, you will serve your citadel by venturing outside its halls and tunnels to explore the surrounding lands, escort caravans, put down threats to your home, and many other tasks suited to your training.

Skill Proficiencies: Three of your choice [Athletics, Insight, and Perception]

Tool Proficiencies: One of your choice [Jeweler's Tools]

Languages: One of your choice [Undercommon]

Feature [Respected Neighbor]: Fearlessness in battle, expertly crafted weapons, and a passion for making fine ale have all helped your kin earn the respect of their neighbors. As such, the jagged mountain peaks that mark the banner Citadel Hoarfrost are well received in all lands within a tenday walk of your home. This respect makes it easy for you to buy and sell goods, acquire services, and gain access to important community leaders.

WIZARD

Wizards are supreme magic-users, defined and united as a class by the spells they cast. Drawing on the subtle weave of magic that permeates the cosmos, wizards cast spells of explosive fire, arcing lightning, subtle deception, and brute-force mind control. Their magic conjures monsters from other planes of existence, glimpses the future, or turns slain foes into zombies. Their mightiest spells change one substance into another, call meteors down from the sky, or open portals to other worlds.

HIT POINTS

Hit Dice: 1d6 per wizard level

Hit Points at 1st Level: 6 + your Constitution modifier

Hit Points at Higher Levels: 1d6 (or 4) + your Constitution modifier per wizard level after 1st

PROFICIENCIES

Armor: None

Weapons: Daggers, darts, slings, quarterstaffs, light crossbows

Tools: None

Saving Throws: Intelligence, Wisdom

Skills: Choose two from Arcana, History, Insight, Investigation, Medicine, and Religion

CLASS FEATURES

As a wizard, you also gain the following class features.

Arcane Recovery: You have learned to regain some of your magical energy by studying your spellbook. Once per day when you finish a short rest, you can choose expended spell slots to recover. The spell slots can have a combined level that is equal to or less than half your wizard level (rounded up), and none of the slots can be 6th level or higher.

For example, if you're a 4th-level wizard, you can recover up to two levels worth of spell slots. You can recover either a 2nd-level spell slot or two 1st-level spell slots.

Arcane Tradition: When you reach 2nd level, you choose an arcane tradition, shaping your practice of magic through one of eight schools: Abjuration, Conjuration, Divination, Enchantment, Evocation, Illusion, Necromancy, or Transmutation.

Your choice grants you features at 2nd level and again at 6th, 10th, and 14th level.

School of Evocation: You focus your study on magic that creates powerful elemental effects such as bitter cold, searing flame, rolling thunder, crackling lightning, and burning acid. Some evokers find employment in military forces, serving as artillery to blast enemy armies from afar. Others use their spectacular power to protect the weak, while some seek their own gain as bandits, adventurers, or aspiring tyrants.

Evocation Savant: Beginning when you select this school at 2nd level, the gold and time you must spend to copy an evocation spell into your spellbook is halved.

Sculpt Spells: Beginning at 2nd level, you can create pockets of relative safety within the effects of your evocation spells. When you cast an evocation spell that affects other creatures that you can see, you can choose a number of them equal to 1 + the spell's level. The chosen creatures automatically succeed on their saving throws against the spell, and they take no damage if they would normally take half damage on a successful save.

SPELLCASTING

As a student of arcane magic, you have a spellbook containing spells that show the first glimmerings of your true power.

Cantrips: At 1st level, you know three cantrips of your choice from the wizard spell list. You learn additional wizard cantrips of your choice at higher levels, as shown in the Cantrips Known column of the Wizard table.

Spellbook: At 1st level, you have a spellbook containing six 1st-level wizard spells of your choice.

Preparing and Casting Spells: The Wizard table shows how many spell slots you have to cast your spells of 1st level and higher. To cast one of these spells, you must expend a slot of the spell's level or higher. You regain all expended spell slots when you finish a long rest.

You prepare the list of wizard spells that are available for you to cast. To do so, choose a number of wizard spells from your spellbook equal to your Intelligence modifier + your wizard level (minimum of one spell). The spells must be of a level for which you have spell slots.

For example, if you're a 3rd-level wizard, you have four 1st-level and two 2nd-level spell slots. With an Intelligence of 16, your list of prepared spells can include six spells of 1st or 2nd level, in any combination, chosen from your spellbook. If you prepare the 1st-level spell magic missile, you can cast it using a 1st-level or a 2nd-level slot. Casting the spell doesn't remove it from your list of prepared spells.

You can change your list of prepared spells when you finish a long rest. Preparing a new list of wizard spells requires time spent studying your spellbook and memorizing the incantations and gestures you must make to cast the spell: at least 1 minute per spell level for each spell on your list.

Spellcasting Ability: Intelligence is your spellcasting ability for your wizard spells, since you learn your spells through dedicated study and memorization. You use your Intelligence whenever a spell refers to your spellcasting ability. In addition, you use your Intelligence modifier when setting the saving throw DC for a wizard spell you cast and when making an attack roll with one.

Spell save DC: Your spell Save DC equals 8 + your proficiency bonus +your Intelligence modifier

Spell attack modifier: Your spell attack modifier equals your proficiency bonus +your Intelligence modifier

Ritual Casting: You can cast a wizard spell as a ritual if that spell has the ritual tag and you have the spell in your spellbook. You don't need to have the spell prepared.

Spellcasting Focus: You can use an arcane focus (found in chapter 5) as a spellcasting focus for your wizard spells.

Learning Spells of 1st Level and Higher: Each time you gain a wizard level, you can add two wizard spells of your choice to your spellbook. Each of these spells must be of a level for which you have spell slots, as shown on the Wizard table. On your adventures, you might find other spells that you can add to your spellbook.

Wizard Spells: 0 Level (Cantrips)

Ray of Frost
Evocation cantrip

Casting Time: 1 action
Range: 60 feet
Components: V, S
Duration: Instantaneous

A frigid beam of blue-white light streaks toward a creature within range. Make a ranged spell attack against the target. On a hit, it takes 1d8 cold damage, and its speed is reduced by 10 feet until the start of your next turn.

The spell's damage increases by 1d8 when you reach 5th level (2d8), 11th level (3d8), and 17th level (4d8).

Light
Evocation cantrip

Casting Time: 1 action
Range: Touch
Components: V, M (a firefly or phosphorescent moss)
Duration: 1 hour

You touch one object that is no larger than 10 feet in any dimension. Until the spell ends, the object sheds bright light in a 20-foot radius and dim light for an additional 20 feet. The light can be colored as you like. Completely covering the object with something opaque blocks the light. The spell ends if you cast it again or dismiss it as an action.

If you target an object held or worn by a hostile creature, that creature must succeed on a Dexterity saving throw to avoid the spell.

Mage Hand
Conjuration cantrip

Casting Time: 1 action
Range: 30 feet
Components: V, S
Duration: 1 minute

A spectral, floating hand appears at a point you choose within range. The hand lasts for the duration or until you dismiss it as an action. The hand vanishes if it is ever more than 30 feet away from you or if you cast this spell again.

You can use your action to control the hand. You can use the hand to manipulate an object, open an unlocked door or container, stow or retrieve an item from an open container, or pour the contents out of a vial. You can move the hand up to 30 feet each time you use it.

The hand can't attack, activate magic items, or carry more than 10 pounds.

Wizard Spells: 1st Level

Burning Hands
1st-level evocation

Casting Time: 1 action
Range: Self (15-foot cone)
Components: V, S
Duration: Instantaneous

As you hold your hands with thumbs touching and fingers spread, a thin sheet of flames shoots forth from your outstretched fingertips. Each creature in a 15-foot cone must make a Dexterity saving throw. A creature takes 3d6 fire damage on a failed save, or half as much damage on a successful one.

The fire ignites any flammable objects in the area that aren't being worn or carried.

At Higher Levels. When you cast this spell using a spell slot of 2nd level or higher, the damage increases by 1d6 for each slot level above 1st.

Charm Person
1st-level enchantment

Casting Time: 1 action
Range: 30 feet
Components: V, S
Duration: 1 hour

You attempt to charm a humanoid you can see within range. It must make a Wisdom saving throw, and does so with advantage if you or your companions are fighting it. If it fails the saving throw, it is charmed by you until the spell ends or until you or your companions do anything harmful to it. The charmed creature regards you as a friendly acquaintance. When the spell ends, the creature knows it was charmed by you.

At Higher Levels. When you cast this spell using a spell slot of 2nd level or higher, you can target one additional creature for each slot level above 1st. The creatures must be within 30 feet of each other when you target them.

Comprehend Languages
1st-level divination (ritual)

Casting Time: 1 action
Range: Self
Components: V, S, M (a pinch of soot and salt)
Duration: 1 hour

For the duration, you understand the literal meaning of any spoken language that you hear. You also understand any written language that you see, but you must be

touching the surface on which the words are written. It takes about 1 minute to read one page of text.

This spell doesn't decode secret messages in a text or a glyph, such as an arcane sigil, that isn't part of a written language.

Mage Armor

1st-level abjuration

Casting Time: 1 action
Range: Touch
Components: V, S, M (a piece of cured leather)
Duration: 8 hours

You touch a willing creature who isn't wearing armor, and a protective magical force surrounds it until the spell ends. The target's base AC becomes 13 + its Dexterity modifier. The spell ends if the target dons armor or if you dismiss the spell as an action.

Magic Missile

1st-level evocation

Casting Time: 1 action
Range: 120 feet
Components: V, S
Duration: Instantaneous

You create three glowing darts of magical force. Each dart hits a creature of your choice that you can see within range. A dart deals 1d4 + 1 force damage to its target. The darts all strike simultaneously, and you can direct them to hit one creature or several.

At Higher Levels. When you cast this spell using a spell slot of 2nd level or higher, the spell creates one more dart for each slot level above 1st.

Shield

1st-level abjuration

Casting Time: 1 reaction, which you take when you are hit by an attack or targeted by the magic missile spell
Range: Self
Components: V, S
Duration: 1 round

An invisible barrier of magical force appears and protects you. Until the start of your next turn, you have a +5 bonus to AC, including against the triggering attack, and you take no damage from magic missile.

Sleep

1st-level enchantment

Casting Time: 1 action
Range: 90 feet
Components: V, S, M (a pinch of fine sand, rose petals, or a cricket)
Duration: 1 minute

This spell sends creatures into a magical slumber. Roll 5d8; the total is how many hit points of creatures this spell can affect. Creatures within 20 feet of a point you choose within range are affected in ascending order of their current hit points (ignoring unconscious creatures).

Starting with the creature that has the lowest current hit points, each creature affected by this spell falls unconscious until the spell ends, the sleeper takes damage, or someone uses an action to shake or slap the sleeper awake. Subtract each creature's hit points from the total before moving on to the creature with the next lowest hit points. A creature's hit points must be equal to or less than the remaining total for that creature to be affected.

Undead and creatures immune to being charmed aren't affected by this spell.

At Higher Levels. When you cast this spell using a spell slot of 2nd level or higher, roll an additional 2d8 for each slot level above 1st.

Thunderwave

1st-level evocation

Casting Time: 1 action
Range: Self (15-foot cube)
Components: V, S
Duration: Instantaneous

A wave of thunderous force sweeps out from you. Each creature in a 15-foot cube originating from you must make a Constitution saving throw. On a failed save, a creature takes 2d8 thunder damage and is pushed 10 feet away from you. On a successful save, the creature takes half as much damage and isn't pushed.

In addition, unsecured objects that are completely within the area of effect are automatically pushed 10 feet away from you by the spell's effect, and the spell emits a thunderous boom audible out to 300 feet.

At Higher Levels. When you cast this spell using a spell slot of 2nd level or higher, the damage increases by 1d8 for each slot level above 1st.
